CCAV

RFP 2020- 002(Conference Center Audio /Video Upgrade Project 2020)

Here is a question we have in regard to the RFP:

"Page 4: Replace projector with widescreen laser projects. Add hidden projector to additional ballroom." - Does this mean a second projector and screen? If so, which direction? I'm not sure what "Additional ballroom" means...

Yes, this would be a 2nd projector. We're looking for suggestions for best the option given the space.
